

# Driver of the Month 2010

*Contest Sponsored by*

*Missouri Trucking Association and the Council of Safety Supervisors*

Independent judges, representing Missouri State Highway Patrol, the Federal Motor Carrier Safety Administration and the Missouri Department of Transportation, choose the winners of this competition.

The driver must be employed by and nominated by a motor carrier member of the Missouri trucking Association. The nominee must either be a resident of Missouri or based at a Missouri terminal. If based in another state, he must regularly travel between that terminal and a Missouri terminal. All accidents must be reported: not just those meeting the definition of “accident” in the Title 49CFR 390.5. The candidates once entered for monthly judging remain in the competition for six months. The winner of Driver of the Year is not eligible for Driver of the Year for three years, but may participate in the Driver of the Month competition.
