## March Update

The current session of the Missouri General Assembly is quickly drawing to a close and a couple of Missouri Trucking Association priorities are still up in the air. Session this year has certainly been very strange. Many of leadership priorities have progressed and are in place to lunge across the finish line at some point in the next couple of weeks. The budget has passed the House and is now taking center stage in the Senate. Education and tax issues have passed both bodies and now it is just a matter of which of them each body would like to focus on.

It has been a good week for transportation as the 1-cent sales tax (HJR 68) passed today on a 96-53 vote in the Missouri House. It was supposed to have happened last week, but an amendment, which sought to prohibit use of these funds on bike paths, really set off many of our friends on the Democratic side of the aisle. After a weekend to reflect, the sponsor backed off and the bill was perfected and third read this week. Now comes the challenging part in the Senate and plans are in the works to help overcome some of the problems that didn't allow it to pass last year. Senate leadership has identified this bill as something they want to get done and are planning to do whatever it takes to get it passed. Now is the time to call your Senator and let them know why this bill is important to businesses and the state as a whole. MoTA members can really make a difference and using your influence with your elected officials is what needs to be done.

Things are going to be very busy at the Capitol over the next five weeks and we will keep you up to speed with all that is going on. If you have time and can make it to Jefferson City for a day or two let us know and we will set up meetings and place you and your company in all the right places to really make a difference. Those who are active and involved generally get what they are pushing for, so it is up to us to make that happen. Hopefully we will see you soon and, if not, stay plugged in via these updates as to where our issues stand. Below is a list of all the bills MoTA is currently tracking. If you have concerns or problems, let us know.
