Courtesy fee of 3% assessed on all credit card transactions.

Credit Card Number: _____ Exp. Date: _____

Name on Card: _____ Verification Code: _____

For federal income tax purposes, your investment in the Association is deductible as a business expense, not as a charitable contribution. Under provisions of the 1993 federal tax law, however, it is estimated that 19% of your membership dues are not deductible because of lobbying activities of the Association. Congress, in effect, placed a tax on your right to petition the government. We trust this small amount will not affect your participation in the Association.

What Does MoTA Offer?

✓ **Governmental Relations**

With the multitude of issues facing the trucking industry and business in general, a strong voice in the Missouri Capitol is needed. The lobbying efforts of the Association include direct contact with legislators, as well as legislative bulletins to the membership. Activities also include contact with various state agencies with regard to procedures, rules and regulations.

✓ **Information and Public Relations**

Newsletters and emails containing the latest information available on trends developing in the industry keep members informed. With the constant changes taking place in rules, regulations, and laws, information is not a luxury, it is a necessity. The Association also provides the economic importance of trucking and other industry data to the public and news media.

✓ **Personal Service**

The Association employs four full-time employees to assist members as needed. The staff has great professional relationships with the Missouri State Highway Patrol, Missouri Department of Transportation, Missouri Department of Revenue, Federal Motor Carrier Safety Administration and Federal Highway Administration.

✓ **Safety Programs**

The Association safety programs include Driver of the Month, Driver of the Year, Safety Director of the Year, fleet safety contests and the Chair's Safe Driver Club. The Council of Safety Supervisors includes safety experts from MoTA member companies who meet monthly and host several events including a Safety Conference, Safety Day at Rest Stops, Truck Driving Championships Competition, Driver Appreciation Event and Weigh Station Visits. The winners of DOY and TDC compete nationally for honors!

✓ **Technology & Maintenance Programs**

The Technology and Maintenance Council is comprised of maintenance experts from MoTA member companies who meet throughout the year. TMC programs include a "SuperTech" skills competition which is a hands-on challenge with multiple skills stations. Technicians test their skills and learn new skills! The winner advances to compete nationally.

✓ **Leadership Programs**

The Association provides a leadership development program called the Missouri Trucking Leadership Forum. It is an 8-session, 2-year program led by the CEO of a Missouri trucking company. The MTLF is designed to expose managers to leadership skills that build competency.

✓ **Business Services**

MoTA endorses PrePass, which allows qualified carriers to bypass weigh stations providing safety and efficiency benefits.

For competitive pricing on safety forms, inspections and materials, call the
MoTA office at (573) 634-3388
or order online at the Trucker's Store at www.motrucking.org.
